

EMS4000 Scanningsystem , used but in very well condition. About >45kpps @ 7° ILDA with 5mm aperture.  
Price : 220,-€

EMS5110 Scanningsystem, new. About >35kpps @ 7° ILDA, 5mm aperture. The scanners do have a integrated scanamp, so only signal and power needed.  
Comes with PS  
Price : 250,-€

Raytrack 35+ Scanningsystem, used but in well condition. Serviced by the original manufacturer (JMLaser). >35kpps @ 8° ILDA, 3.5mm aperture , comes with a integrated safety!  
Price : 250,-€

CT6200 with CT amps, used only about 3 hours for tests. Comes with mirrors for 3,5mm aperture. No mounts available.  
Price : 250,-€

DT50 scan system, >45kpps @ 8° ILDA, 5mm aperture. New overstock. 2 Sets are available.  
Price : 300,-€ each

Rotary solenoids, Ledex, with optical feedback. Incl. Bracket  
Price : 20,-€ each

Goldenstar shutters. Copy of the eyemagic solenoids. New, never used, overstock. Up to 6mm aperture.  
17pcs. Available.  
Price : 20,-€ each

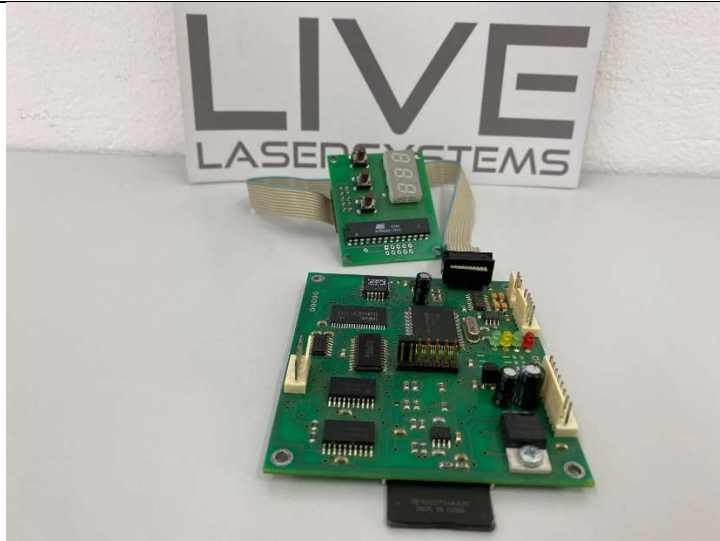

Eyemagic colorsafe. New, never used.  
Price : 250,-€

JMLaser ILDA switches (for switch between internal and external ILDA input).  
4pcs. Available.  
Price : 25,-€ each

Netlase network ILDA card, 6+1 colors. Works with : LPS, Dynamics, HE- Laserscan, Mamba, Phoenix LIVE , etc.  
6pcs. Available.  
Price : 250,-€ each

JMLaser DMX playback board. Easy plays ILDA frames via DMX triggering. ILDA frames on SD card, incl. DMX address board  
Price : 50,-€

Vicor 600W PFC module, Output 250-400VDC , Input 135-354V  
New old stock.  
3pcs. Are available.  
Price : 70,-€ each

Vicor DCDC module, Input 250-400V, output 12V 150W.  
New old stock.  
20pcs. Are available.  
Price : 40,-€ each

Lambda PF1000A PFC module  
Input 100-240VAC , Output 360VDC.  
2pcs. Available  
Price : 80,-€ each

Artesyn BXB100-48S05 DCDC converter  
Input : 36-72VDC , output 5VDC 20A.  
50pcs. available.  
Price : 25,-€ each

Dual voltage powersupplies.  
+/-18V and +/-24V for standard scanners (like DT50 , PT-A40 , PT-A30, Raytrack, etc.)  
New overstock.  
21pcs. available.  
Price : 15,-€ each

Picodrive DPSS Laser driver (swiss engineered/manufactured).  
Drives up to 10A for the laser diode and 2x fullbridge TEC drivers 3A each.  
Input voltage : 5-5.5V , ideal for all kinds of CNI DPSS lasers.  
20pcs. available, new.  
Price : 150,-€ each

CNI MBL-457-2W  
New 2W 457nm DPSS laserheads, all doing over 2,5W at less than maximum current.  
If needed, we can do the drivers to get a fully working laser.  
8pcs. available  
Price : 750,-€ each

LASOS LasNova 473nm 40mW  
dpss laserhead. Working, no  
pinout available  
Price : 80,-€

594nm 2,9mW JDS Uniphase  
HeNe Laser incl. Powersupply,  
fully working, good condition.  
Price : 180,-€

542nm 1,2mW JDS Uniphase  
HeNe Laser incl. Powersupply,  
fully working, good condition.  
Price : 180,-€

X/Z lineartables with X/Z  
rotation.  
Don't know the manufacturer,  
very good condition.  
3pcs. available.  
Price : 80,-€ each

Optosigma heavy duty X/Y table with micrometers. Well condition.  
Price : 100,-€

Table for PCAOM out of a old lasersystem. Don't know the manufacturer.  
Price : 20,-€

Linear tables, one with hole. Good condition.  
Price : 30,-€ each

Daedal X/Y/Z linear tables with micrometers.  
Good condition.  
Price : 120,-€

Kulicke and Soffa X/Y/Z linear tables with micrometers. Used, condition is okay, need a cleanup.  
Price : 100,-€

Oriel optics 2 axis rotation mounts for round optics. Used but good condition.  
Price : 50,-€ each

Oriel optics rotation and 2 axis tilt table. Good condition.  
Price : 50,-€

A big mirrorholder with 2 axis adjustment.  
Price : 40,-€

Daedal rotation mount with setscrews. Good condition.  
Price : 40,-€

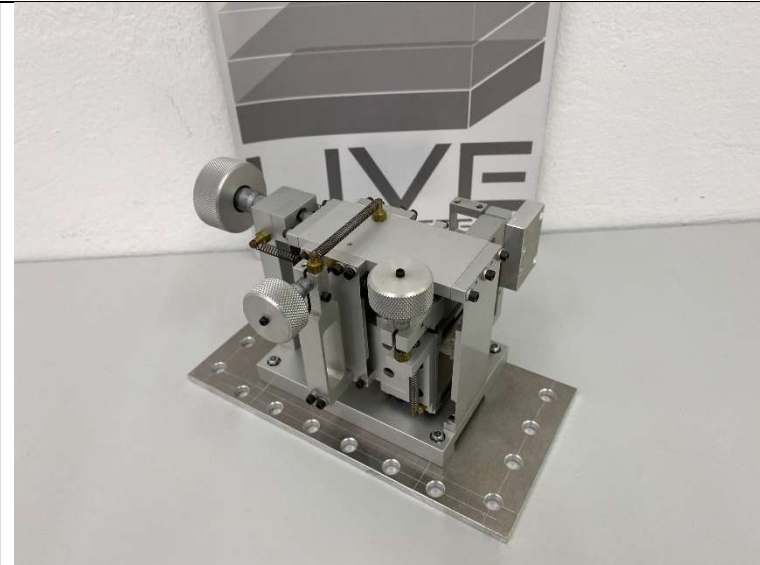

Kinematic rotation mount for round optics. Incl. Scale.  
Price : 30,-€

Newport X/Y and rotation holders for round lenses. Good used condition.  
Price : 50,-€ each

NEAT motorized linear rails , massive built incl. Endswitches. Used but well condition.  
Price : 100,-€ each

X/Y/Z table , was used for fiber adjustment. Incl. Electromagnets for a „backwobble“ to get easier tot he setpoint.  
Price : 150,-€

PHOENIX LIVE Dongles, we can send the software too.  
Price : 80,-€ each

Stellarnet used Spectrometer.  
Well condition.  
350-1100nm, resolution : 1nm  
Price : 650,-€

UVIKON 930  
Spectrophotometer.  
Wavelength range 190-900nm.  
Fully working condition. It's a 2  
beam spectrophotometer.  
We done a holder for adjust the  
rotation for optics to get curves  
at for example 45°.  
Comes with the original sample  
holders.  
Price : 750,-€

80x80mm fan grinds, 49pcs.  
Price total : 20,-€
